# ROOM 1 MS. GABI, MS. CRYSTAL & MS. BELEN

Last month was a complete blast as we spent time exploring with warm and cool water. We had fun using crayons as we worked on our **Octagon** art but our favorite part was making our turtles for our nursery rhyme, "**This Is My Turtle.**" We showed our 4<sup>th</sup> of July spirit this month too as we made **Red, White and Blue** footprint flags.

In **August**, our little ones will be learning with the theme, **Open and Close**. We will read books to go with this theme, explore with our picnic prop box, and include window and curtain play too! Our babies will also paint with the color, **Blue**, learn about the shape, **Oval** and explore a different texture with gelatin gigglers. We will rhyme "**Where Is Thumbkin?**" and practice the baby sign for **Diaper**.

You will hear us singing, "**Good Morning To You**" as we welcome two special friends to our class this month! We are also excited to congratulate Ava and Lynnly on their big move to Room 2!

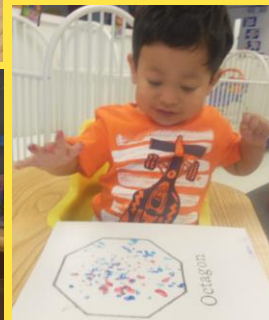

# ROOM 2-MS. DARLENE

We had a fun filled month this July as our class pasted, painted and learned about Octagons. We loved making turtles for our nursery rhyme, "This Is My Turtle" and had a blast playing with the tunnel in our class as we learned with the theme, Inside and Outside. Our little ones also enjoyed our patriotic art as we made U.S flags with our hands and feet.

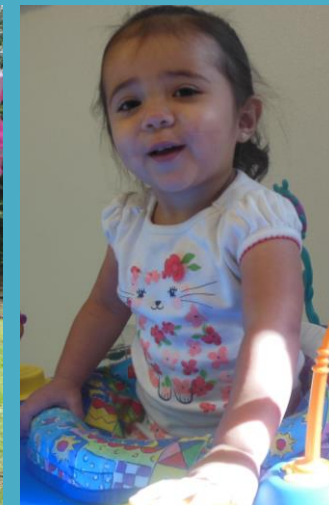

This upcoming month, our class will learn all about Open and Close as we incorporate windows and curtains. We will paste and paint with the shape Oval and make our very first books too! Our little ones will play with gelatin giggers and sing an old favorite, "Good Morning To You." we will also rhyme, "Where Is Thumkin?" and learn the baby sign for Diaper.

We say farewell to Charlotte and send a warm welcome to Ava and Lynnly who have joined our bunch! We cannot wait to learn and play together!

# ROOM 3-MS. MARIBEL, MS. JORDAN & MS. STEPH

July was filled with Inside and Outside activities as we learned with this theme. Our little ones also spent time learning about our three patriotic colors, Red, White and Blue this month. We learned about the shape Octagon and practiced the baby sign for Hurt. We loved dancing to "Hokey Pokey" and rhymed during circle time too! Our favorite part this month was exploring different temperatures as we dipped our feet and hands in warm and cool water. During the month of August our class will have the opportunity to create their own book. Our new theme will be Open and Close and we will have a blast exploring with it. Our new color of the month will be Blue, and we will learn about the shape Oval. You will hear our class singing, "Good Morning To You" and we will rhyme a favorite, "Where Is Thumbkin?" We are thrilled to have new friends join us this school year, we are so ready to learn!

123

# ROOM 4-MS. JESSICA, MS. CHERYL & MS, JENNIFER

In July our class learned all about **Water**. We had a blast making sailboats, frogs and our own handprint fish. Our little ones also enjoyed making raindrops with their little fingerprints. Our smart kiddos had fun learning about how important water is for not only us but plants and animals. Our class also showed their Fourth of July spirit as we painted flags for the holiday!

This **August** our theme will be **Big Animals** and we will be making elephants, dinosaurs and giraffes with our hands. Our nursery rhyme for the month will be, "This Cow" and we will sing, "Did You Ever See?" We will paint with **Blue** and learn about the baby sign for **Diaper** too. We are excited to welcome not only a new school year but all the new friends this season will bring! Welcome back Zackary and Knox. We are glad to have you join us!

MEET the TEACHER!

9:00 am - 11:00 am

# ROOM 5- MS. VICKY, MS. KALEEN & MS. REBECA

Our class had so much fun this past July as we explored with different themes including, the Rainforest, On the Farm, On the Islands and Out In Space too! We loved learning about all the fun birds who live in the Rainforest and also reviewed familiar animals who live on a Farm. We loved making patriotic art as we celebrated U.S.A but definitely loved talking about Outer Space the most! Our little ones have truly been enjoying Show and Tell Fridays as they share special treasures with friends. This August will bring new friends to our class and we cannot wait to meet every one of them! We will end the summer learning about The City, The Prairie and the Desert. Our little ones will enjoy learning about different means of transportation found in the city, make "Wanted" posters for our Prairie week and learn about the different animals that survive in the Desert.

We are excited to welcome a new school year and cannot wait to see what is in store!

# ROOM 6-MS. SARAHI, MS. KANDICE & MS. RAQUEL

This July we spent some time talking about the differences of living in the **Rainforest**, the **Farm**, the **Islands** and **Out In Space**. We had a blast pretending to milk a cow and playing with mud like the pigs do at the **Farm**. We learned about the different plants and fruits that grow on the **Islands** and we got to eat pineapple as part of our lesson too. Our little ones were so mystified learning about **Space**, rocket ships, aliens, the planets and the stars.

We couldn't be more excited about starting a new school year and getting the opportunity to meet new friends! We will be learning about the **city** and all of our city's wonderful community helpers. Our class will also spend some time talking about the **Desert** and the **Prairie**. We will review letters, "K", "O", "G", "F", "H" and colors purple and red and also numbers 4 and 5.

Hello to all of our new friends and goodbye to our big boys and girls moving up to Room 7 and Room 8.

# ROOM 7-MS. DENISE

Our class had so much fun celebrating the 4<sup>th</sup> of July and we loved coloring our very own fireworks. We hope you liked our patriotic board in the hallway. We learned so much about the different places in the world. Our favorite week was **On The Farm** as we loved making our baby chicks. **Out in Space** was also a blast as we made cute little aliens too!

We are so excited to welcome a new month and with that new friends too! We will end our summer learning about the city, the desert, and the prairie. We will spend some time making school buses, cool snakes and our own "wanted" posted as well! Summer went by too fast as we had an absolute blast and we wish all of our kiddos moving up the best of luck!

# ROOM 8 - MS. KATIE, MS. ALYSHA & MS. KELLY

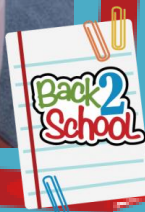

This month, room eight had a lot of fun experimenting with different math and science concepts as we learned about our various themes! Our favorite experiments were during our "On the Farm" week, when we made play dough and "milked a cow!" We loved learning about the different parts of farmers' jobs as well as what kind of animals live on farms—you can check out the books we made about them! We also had fun exploring our other themes—like "On the Island" and "In the Rainforest," in which we learned about conservation by making crafts with recycled materials. Take a look at the binoculars we made out of toilet paper rolls!

Next month, we look forward to finishing up our summer themes "Out in Space," "In the City," "In the Desert," and "On the Prairie." We also look forward to continuing learning about the history and geography of America. (Most of our friends think all of the villains in our stories are "redcoats" now!) We will also begin honing our focus back in on our academic skills, such as tracing, writing, drawing, and reading in order to get back into the swing of things for the new school year.

We're happy to welcome Andrew back from vacation, we are so glad to have you back!

# ROOM 9-MS. NICOLE & MS. LEANDRA

Wow Summer is half way over, we have had so many great adventures in junior summer camp with some more to come! During the month of July we explored islands, our awesome country USA, the rainforest, farms and outer space. Our class really enjoyed learning facts about these wonderful places around the world. Our field trips continued and we loved making new memories with friends. Parents please look at our bulletin in the class to take a peek at our adventures so far this summer. We continued to explore our character values, and work on ways to be a leader! We learned that the best leaders have the skills to be great followers. Science

Experiments were a blast, our favorite so far was making a volcano.

The month of August is right around the corner and is very bittersweet for the kiddos and us as teachers! We are getting closer to closing another great summer here at Children's Lighthouse, and move back into our fall curriculum. We will continue our last couple field trips to include our favorite swimming! It has been so awesome watching our kids "brave" the diving board! We have watched kids make friendships that will last for a long time, and we have seen growth in so many ways! We will miss our summer campers but know they will all do amazing at school this upcoming fall! Reach for the stars Junior Campers, you all will go far!!

# ROOM 10-MS. MARIA & MR. BRENT

The month of July was a blast as we continued exploring with our weekly themes and loved taking fun field trips. Our kiddos learned about the Rainforest, making toucans and animal masks, in addition to visiting the nearest "Rainforest" in town, The Rainforest Café.

We also spend some time talking about Farms, the animals that live there and had the wonderful opportunity to visit Fiesta Farms too! We loved learning about Outer Space this month and enjoyed bowling with friends!

August will fly by as we wrap up the last weeks of summer. We will learn all about In The City, In The Desert and On The Prairie. We will continue with our field trips and visit Morgan's Wonderland this month too!

We are excited to enjoy these last few weeks of summer with all our wonderful kiddos and get ready to go back to school!
